

27 July 2016 IAIS to hold public background session via teleconference on launching the 2016 Insurance Capital Standard (ICS) Public Consultation (from 2:00 PM to 4:00 PM CEST)

The IAIS is launching the 2nd public consultation on a proposed Risk-based Global Insurance Capital Standard (ICS). A public background session will be held via teleconference following the release of the 2016 ICS Consultation Document on 19 July. A presentation will be delivered by Paolo Cadoni, Chair of the Capital, Solvency and Field Testing Working Group, Tom Finnell and John Maroney, Vice Chairs of the Working Group. Interested parties are welcome to dial in to participate in the call (dial-in details are provided below). There will be a question and answer session after the presentation on the 2016 ICS Consultation Document. The call will conclude no later than 4:00 PM CEST.

The purpose of this session is to:

- a. Provide background information on the ICS project.
- b. Outline how the project has progressed and describe the subject matter that is being presented for public consultation.
- c. Describe specific issues or options for which the IAIS is seeking targeted input.
- d. Receive feedback from stakeholders.

Date: Jul 27, 2016 at 2:00 PM CEST (Central European Summer Time)

Dial In Numbers

+41 58 262 07 22 (English)
+41 58 262 07 44 (Italiano)
+41 58 262 07 33 (Français)
+41 58 262 07 11 (Deutsch)

**For participants calling from USA or UK we recommend use of an alternative number
+ 41 31 915 60 02**

Participant Access Code: 701694

There will be question and answer session after the presentation on the 2016 ICS Consultation Document.

During the conference call, all participants will be in listen-only mode.

Participants who would like to ask a question should press *14 on their phone.

Participants press *15 to remove a question from the question queue.

The operator will unmute each questioner's line in chronological order.

Participants are asked to introduce themselves and their organisation before asking a question. Once the question is answered, the questioner will be placed back into listen only mode.
